How can we afford absolutely free checking accounts?

When you're the littlest Bank in town, you can't afford not to.

Take a careful look at your last monthly checking account statement. If there's a service charge, that's money right out of your pocket. Or maybe you've got one of those so-called "free" checking accounts some of the Other Banks advertise. Look again. Bet it's got a built-in, generally unsolicited line of credit or some other little hitch somewhere. Not so with us. They're your dollars and we don't think it's right to charge you for their use. We'll supply personalized checks as many as you need. No need to worry about minimum balances or service charges.

We'll even pay your bank-by-mail postage. Both ways.

Service charges, fancy-dan check and passbooks, stuff like that, are for the Big Boys. We may be little but we're the only privately owned and governed commercial bank around. We determine our own policies. Aren't you glad there's at least one bank which still does?
