NOTE: Calculations have been conservatively figured at a dividend rate of 4½% yearly. Although Rochester Savings Bank has paid dividends without interruption since 1831, no specific rate can be guaranteed, as rate depends on earnings.

Will your retirement years be carefree? By starting now and planning ahead, you can provide a comfortable addition to your pension and Social Security payments. It's easy to do at Rochester Savings Bank. You combine a regular savings account with an *Automatic Income Account*.

Say you're 45 now. You begin saving. In 20 years the amount in your account will be more than half again as much as you deposited! Based on our current dividend rates. At age 65 (earlier if you wish), you convert your savings to an Automatic Income Account. Simply decide how long you want your savings to last, and fix the amount of the payments accordingly. It's that simple.

Or, you may prefer to receive monthly payments from the interest only, retaining the entire principal for your beneficiaries. The table above shows the payments you could receive and the amount you could leave your beneficiaries.

You can't beat a plan like this. Especially when you take into account the safety of your money and Rochester Savings Bank's dividend record over the years. To open a Savings Account, mail the coupon, or stop in at any office of Rochester Savings Bank.
