

WHAT IS A SENATOR?

1. He is a person CONSCIOUS of the needs and desires of those he serves, and does his best to answer both.
2. He has COURAGE and is not afraid to be guided by his convictions in making decisions that will affect all of the people.
3. He is RESPONSIBLE. He is no longer a private person and his responsibilities extend to all of those he represents, not any one segment or group.
4. He is KNOWLEDGABLE and has a thorough understanding of every problem he must face because of his continuing study and investigation .
5. He is SACRIFICING with a voluntary commitment to his people and a willingness to sacrifice everything for them.
6. He is DISCERNING. Today's Senator must be able to cope with difficult problems which may necessitate decisions demanding toleration by some for the good of many.
