GE Refrigerator-Freezer

Model TBF-17SL **\$318**

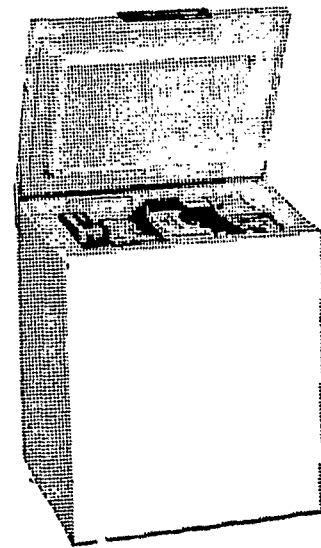

You'll never defrost again with this no-frost refrigerator-freezer with the 154 pound capacity freezer. Shelves adjust or slide out to make it easier for you to store bulky items. Roomy door shelves hold half gallon cartons of milk and ice cream. You can get an ice maker at an additional charge. Door stops protect your cabinets and walls. Magnetic seal door opens easily, closes quietly, available with either left or right hand opening.

GE Range with Self-Cleaning Oven

\$289.95 Model J332

Another work-saver for you, this range has an oven which cleans itself automatically, safely and economically. In fact it costs less per cleaning than you're paying now for cleaning products. Automatic oven timer sets like any alarm clock to turn oven on and off. Roomy storage drawer below oven, recessed cooktop for easy cleanup of spills and appliance outlet are all standard to make cooking simple and quick.

GE Chest Freezer

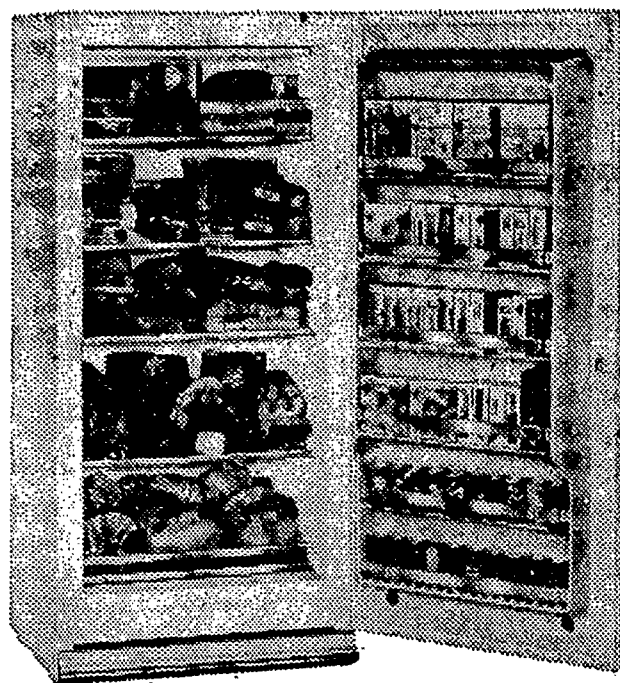

\$156 Model CB6DL

If you have no room for a big freezer, you can still take advantage of home freezer benefits with this small chest freezer at a small price. Conveniently counter high, this model is only 30 3/4" wide and will fit most anywhere. Single movable basket for easy loading, adjustable temperature control and all the built-in quality of any GE appliance.

GE Bookshelf Freezer

Model CA16-DL **\$228**

To save you time and money, this big upright freezer holds 553 pounds of super-market specials. You'll shop less often when you have 15.8 cubic feet more of storage space. There are four big door shelves for ice cream and juices and a security tumbler lock to keep out unwelcome raiders. Nine temperature settings to suit your needs. Handy defrost drain makes defrosting easy and quick. Glass fiber insulation means no wasted refrigeration.
