FACTORY CLOSEOUT SALE of Frigidaire Washers and Dryers

There will be no more available when these are gone!

Dryer model DNS **\$157**

Here is a dryer that does everything for you that an automatic dryer should do. Like keeping the permanent press permanent by treating such clothes the way manufacturers recommend with an automatic cool-down period that keeps wrinkles away and an end-of-cycle signal that reminds you to remove the clothes before new wrinkles set. Tumble drying in Flowing Heat handles clothes gently, saves wear. The lint filter is easy to reach and traps even the finest particles of lint. You can choose a Timed cycle up to 70 minutes or a fully Automatic cycle that ends precisely when your clothes are dry.

Washer model WN66 **\$215**

The one and only Frigidaire Jet-Action washer is available now at factory closeout prices. Deep Action Agitator plunges clothes deep into tub where cleaning is best. Durable Press care cycle has correct wash temperatures, and cool-down rinse so that you don't have to iron Permanent Press items. If a load becomes unbalanced, the Sure-Spin Drive system takes over and helps the washer complete the cycle automatically. Rapidry Spin gets the water out; you'll love how quickly your laundry dries, on the line, or better still, in a Frigidaire automatic dryer. The washer and dryer are both available in white or copper. Quantity is limited so hurry!
