model PKC 9632W-149A

The oven that keeps itself clean
in a gas range from **HARDWICK**

\$299.95

Now you can have instant-on-instant-off and an oven that keeps itself clean, too. The continuous clean feature disposes of most spills while you bake or roast, at normal cooking temperatures. If somebody's late for dinner, you can keep it table-ready with the special 140 degree low oven setting. You broil on this model with the door

closed, so there's no smoke or odor in your kitchen. Chrome burners stay shiny-new, and they have an infinite number of settings between "high", "simmer" and "keep-warm". To make cleanup easier, the entire broiler, cooktop, and oven door are removable. In white only. Budget terms available.

RGE AND **ROCHESTER GAS AND ELECTRIC**
89 EAST AVENUE, ROCHESTER, N.Y. 14604 • 546-2700

Open Tuesday and Thursday till 9, Saturday till noon.
