King's Prep Parents Give Gift to Fisher

The King's Prep Parents Association has donated \$3,000 to St. John Fisher College. King's Prep, formerly a co-ed high school, was closed last June.

The parents' association gave its remaining funds to St. John Fisher College for library pur-

poses in view of the number of former students from St. Andrew's Seminary-King's Prep enrolled at the college.

Robert Gullo, library director, said that with the gift from the parents' association, the library has purchased the New

York Times on microfilm from 1929 through 1936. The years from 1937 to the present were already in the Fisher collection.

"The college is greatly indebted to King's Prep," said Gullo, "for its interest and support in making the library collection richer."

Avoid the Old Car Wash.

So you want to buy a new car. Fine. There's no better time of the year to do it. But you should know that there's a way to buy one without taking a bath in the bargain. The very great majority of the city's bank-financed auto loans are handled through the auto dealers themselves.

It's the traditional way to make your transaction. Very tidy, very convenient. And you'd better believe that he's getting a little extra compensation for processing your loan. Not to mention the fact that your personal credit rating becomes known to someone besides your banker.

Why not put the straight bite on us? We'll save you the difference and keep your finances confidential at the same time. Then just take your First National check to your dealer, drive away and everyone's happy.

Our terms? Well, we're darned sure you won't do better for yourself anywhere else. In fact we were the first to announce that the annual interest cost for our new car loans has been reduced one-half of one per cent.

If that doesn't convince you, you're too rich to care.
