LAUER'S GIFT AND ACCESSORIES SHOP HAS

# the "now" look

IN A WEDDING GIFT SELECTION  
TO DELIGHT TODAY'S BRIDE

Now is the time to come to the aid of the Spring or early Summer Bride. And Lauer's is the place that can provide you with immediate assistance in a choice of gift that is as up-to-the-minute and as individual as the 1971 Bride herself. Our gifted accessories have the look of the "now" generation. They're the ideal start on building an interesting decor for the young couple's first apartment or home. But in recognition of the fact that today's Bride is the homemaker of many tomorrows, they also have the quality and practicality that will make them cherished possessions for years and years of happy wedding anniversaries.
