*You need help on
the wedding day.
Not congratulations.*

And you'll get it from us. Because we've been invited to a lot more weddings than you've given, or ever will give. That's why we have it down to a science. No slip-ups.

All you have to do is tell us how much you want to spend. How many guests are going to be there. And the date. Then leave the rest to us. We'll give you a wedding reception you and your guests will remember for a long time.

Food? You'll get the same food you can get at our restaurant. And you know our restaurant's reputation for quality and quantity. We don't scrimp because everything we do is in that good old-fashioned way people used to do things.

So don't worry. We'll even do that for you too. And for free. And if you have guests staying over, why not have them stay within walking distance of the reception?
