SKI in a DAY

"THE SAFEST AND FASTEST WAY" TO LEARN TO SKI is now available at Bristol Mountain.

New this year the Bristol Ski School is offering the GLM" — Graduated Length Method, the latest in ski-instruction. This system enables the individual to SKI IN A DAY.

GLM, which starts the beginner on short 3 foot skis, allows him to graduate over 4 and 5 footers to his actual required size, as he progresses in class. The theory being that shorter skis are easier to maneuver, this enabling the student to progress faster and safer, building confidence in his skiing ability as he enjoys the facilities to the fullest.

To introduce this new concept we are offering a special beginners package during December and January.

- 2 Lessons
- Rentals (Skis, Boots, Poles)
- Up to 3 Hrs. of free lift privileges
- Home training packages

The Cost? Only \$15.

(Because special equipment is required, we have to limit this to 50 students per time period on a first come first served basis).

Please register by mailing coupon and \$15.

per person to:
