## No Pool Like a Young Pool

Photos By Susan McKinney

Young swimmers in the CYO Tiny Tot swim program reacted differently to their first plunge in the pool.

Some of the 3 to 5-year-old children faced their first dip with tears, but some of the others found the water too enjoyable for the comfort of Ruth Whelehan, head instructor, and her staff. One little boy kept diving in whether or not the instructors were ready.

In the Tiny Tot program infants learn to swim without fearing the water; they aren't even rebuked for splashing.

Vincent LaBella and Karen Rice, wonder what they will do when it is their turn.
