om the people of Corning.

In June of 1972 our city was flooded—almost devastated.

Most of us lost something; some of us lost everything—our homes and members of our family.

Yet at our lowest point there came a special response—from you, our friends in Rochester—asking for nothing other than the chance to help.

On the anniversary of Hurricane Agnes we just wanted you to know how we felt. When we needed you most, you were there.

By our signatures we send you renewed thanks.

This message is brought to you by Corning Glass Works. Let us add our own thanks to those of the people of Corning, N.Y.
