## Relax in...

## The Great Outdoors

Symbolic of the grandeur of the nation's facilities for relaxing vacations in the Great Outdoors is this magnificent view of New Hampshire's famous Franconia Notch. Happily for all, during this year of energy crunch, camping, fishing, boating, hunting — all of the opportunities for enjoying leisure time — are within a tankful of gasoline for most communities. How to help everyone make the most of vacations this year is the mission of this special supplement.
