## **THE PIETA**

Sibley's considers it a rare privilege to bring to Rochester this reproduction of Michelangelo's supreme masterpiece, the Pietà, and cordially invites you to see it in our Ward Gallery. Discover the incredible detailing, the sensitivity of this beautiful work in the magnificent bronze casting made from the original statue seen by so many millions in Rome.

Michelangelo finished carving the Pietà in 1498, at the time of Columbus' third and last voyage to America. The reproduction was cast by a famous Florentine foundry from a plaster mold made two centuries ago directly from the original marble. It reproduces the perfection of the original faithfully, is actual size and irreplaceable. Sibley's is indeed indebted to Marquette University for the loan of this art treasure.
