FRENCH GLAZED DONUTS **11¢** EACH

STAR PRICING POLICY HELPS CUSTOMERS

Star customers will receive the benefit of the lowest prices available under a new pricing policy that went into effect Oct. 16th in every department of Star Supermarket.

Prices of items already on the shelves will not increase although new shipments of the same products may come into the store at new higher prices.

Lower priced items will be moved to the front of the shelves so customers may take advantage of the lower prices. As prices increase, the higher prices will be stamped only on items used to restock the shelves.

Customers will immediately benefit from any price decrease. When a shipment of a product comes in at a new lower price all items, including those on the shelf marked at a higher price will be marked with the lower price.

Items sold as specials will be the only exception of the new pricing policy. Any item that is not sold during the special period when it is marked at a special lower price, will be marked at the usual selling price.

Customers may also see a difference in the price of the same item if they shop in more than one Star Supermarket. This occurs when an item sold faster in one store than it does in another store. Higher priced new shipments of the same product will rotate to the front of the shelves faster in the store that sells more of that item.

The new policy was adopted at the request of some of our customers who are concerned about rising food prices. We feel that the new policy will help our customers take advantage of the lowest possible prices in Star Supermarkets.

Customers who have questions about this new pricing policy may call Star Headquarters - phone number 298-2850, ext. 221.
