## BOYS CITY-CATHOLIC BASKETBALL

**Friday, Feb. 20**  
Kearney at Mooney, 8:30 p.m.; Edison at Madison, 3 p.m.; McQuaid-Aquinas at Boys Club, 7:30 p.m.; East at Monroe, 3 p.m.

**Saturday, Feb. 21**  
McQuaid at East Rochester, 8:30 p.m.

**Tuesday, Feb. 24**  
McQuaid at Edison, 3 p.m.; Franklin at Kearney, 3:45 p.m.; Monroe at Aquinas, 3:45 p.m.; Mooney at Madison, 3 p.m.

**Previous Results**  
Monroe 80, Franklin 77; Irondequoit 61, Kearney 44.  
**Standings [2/12]**  
Monroe 14-0 (League), 16-0 (Overall); East, 12-2 (12-4); Madison 9-4 (10-5); Mooney 7-6 (8-7); Edison 7-6 (8-7); McQuaid 4-9 (4-10); Franklin 4-10 (5-11); Kearney 3-11 (4-12); Aquinas 3-11 (4-12).

## BOYS CITY-PRIVATE BASKETBALL

**Friday, Feb. 20**  
HAC at Park (Buffalo), 6:30 p.m.  
**Tuesday, Feb. 24**  
Canisteo at HAC, 7:30 p.m.; Jefferson at Charlotte, 3 p.m.

**Previous Results**  
Jefferson 60, Marshall 38; HAC 73, Wyoming 60.  
**Standings [2/12]**  
Harley-Allendale/Columbia 5-3 (League) 11-4 (Overall); Jefferson 5-3 (11-4); Charlotte 4-3 (8-7); Marshall 2-7 (4-11).

## BOYS MONROE COUNTY HOCKEY

**Saturday, Feb. 21**  
At RIT: Rush-Henrietta vs. Penfield, 11:30 a.m.; Sutherland-Brighton, 1:15 p.m.; McQuaid-Mendon, 3 p.m.; At Lakeshore: Irondequoit-Eastridge, 12:00; Webster-Kearney, 2 p.m.; Aquinas-Fairport, 4 p.m.

**Previous Results**  
Sutherland 12, Rush-Henrietta 1; McQuaid 5, Brighton 1; Mendon 6, Penfield 3; Irondequoit 4, Penfield 3; Webster 3, Eastridge 3; Aquinas 6, Kearney 3.  
**Standings [2/12]**  
Northern Division: Aquinas 11-1-0; Irondequoit 8-3-1; Webster 5-6-1; Kearney 4-7-1; Fairport 3-8-1; Eastridge 0-12-0; Southern Division: Sutherland 12-0-0; Mendon 8-2-2; McQuaid 8-3-1; Penfield 4-7-1; Brighton 4-8-0; Rush-Henrietta 1-11-0.

## BOYS CITY-CATHOLIC SWIMMING

**Saturday, Feb. 27**  
Section 5, Class B-C Tournament  
**Saturday, March 5**  
Section 5, Class A Tournament  
**Friday/Saturday, March 12/13**  
Intersectional Tournament at Section 5 site to be announced.

**Previous Results**  
Olympia 89, Charlotte 83.  
**Final Standings**  
McQuaid 10-0 (League), 13-0 (Overall); Marshall 9-1 (9-1); Charlotte 8-2 (8-4); East 7-3 (7-3); Aquinas 6-4 (6-4); Edison 5-5 (5-5); Harley-Allendale/Columbia 4-6 (4-6); Madison 3-7 (3-7); Franklin 2-8 (2-8); Monroe 1-9 (1-9); Jefferson 0-10 (0-10).

## BOYS CITY-CATHOLIC WRESTLING

**Saturday, Feb. 21**  
City-Catholic Tournament, 10 a.m., at East High.

Mercians Claudia Gomez and Ruzica Zlatunic show on the globe the whereabouts of their respective native lands. Biology is Claudia's favorite subject, and Rozica in her spare time is an active swimmer, tennis player and ice skater.

## American Citizenship:

### A Single Goal for Two Girls

By JOAN M. SMITH

In the 1980 national elections, there will be two very enthusiastic new voters. Enthusiastic because it will be the first time these voters will be fulfilling their obligations as American citizens.

Mercy Juniors Claudia Gomez from Colombia, South America, and Ruzica Zlatunic from Yugoslavia are looking forward to their 18th birthdays so they can begin the procedures which will make them citizens of this country.

Neither girl is a newcomer to America as they have been here through most of their educational years.

Claudia who hails from the Colombian town of Bucaramanga which is near the capital of Bogota has been in this country nine years.

Her family first resided in New York and she still misses the big city because "There's more going on there." But having relatives living there helps as she is able to visit every so often.

Claudia was eight years old when the Gomez family immigrated to the United States so it was hard for her to recall too much about Colombia. She remembered the weather doesn't change too drastically. There is some cold and rain but most of the time it is rather mild. She also recalled having learned some English especially in songs taught in the early primary grades.

The Gomezes are ardent campers and often head for the Southern Tier. Claudia delighted in explaining the joys she finds in this pastime. "It's the quietness, peacefulness and the nearness to the animals."

Claudia had the privilege of seeing her mother sworn in as an American citizen in December and because of this Claudia has honorary citizenship status. Once she has turned 18, however, she will have to file for her own citizenship and follow the required procedures, attend classes regarding the American government and Constitution, take special examinations.

It was when she received her temporary citizenship that her classmates surprised her with a

party complete with huge cake decorated as an American flag.

It was equally difficult for Ruzica to recall her childhood in Vukovar near the Yugoslavian capital of Belgrade because it will be 11 years ago this St. Patrick's Day that the Zlatunic family came to America.

It was a long involved process for them to legally emigrate from Communist Yugoslavia. In fact, they had completed all papers and all required formalities once, only to be told by the authorities that because of some technicality they had to repeat the process. Finally after two years they were given permission to leave.

"Getting into Yugoslavia is easier then getting out of it," remarked Ruzica as she told about her father's recent visit to his homeland. According to her his return held many surprises especially the appearance of popcorn machines and movie houses which didn't exist a decade ago. Also, the country is becoming more industrialized and under the Communist regime of Marshal Tito churches are being rebuilt through government financing.

Claudia's father also paid a recent visit to his homeland and found the poorness of the people to have become more prominent. It is not unusual to walk down a street lined with lovely homes and then turn the corner and encounter abject poverty. Also there is the constant threat of political upheaval.

As the girls compared notes on their respective countries, Claudia

pointed out that in Colombia you are either rich or poor whereas Rozica acknowledged there is a three-class system in Yugoslavia, but she emphasized, "people just don't have a chance to break their class lines."

Both girls agreed there is more opportunity in the United States to be what you want to be and they definitely have their sights set on their futures.

Claudia intends to be a registered nurse while Rozica looks forward to a teaching profession. "In the elementary schools because I like kids."

They both enjoy their American Studies program and whether or not it is an indication of their party preference they both chose as their favorite president a Democrat.

Claudia completed a thesis on Franklin D. Roosevelt and found him to be a great president and explained, "Even though he was crippled he did a lot for the country especially during the depression."

Ruzica focused her attention on John F. Kennedy because "he was a people's president who was concerned with the welfare of the people."

The girls have maintained their native lingual expertise and whether it's Rozica's lively "Dravjo" or Claudia's bright "Hola" the meaning is the same warm "hello." And Ruzica laughingly threw in for good measure, "Idi" the Yugoslavian equivalent to "right on" which is an apt description of America's two future citizens.

## RIT Offers Special Science Program

Rochester Institute of Technology's College of Science will offer a course in probability to 20 outstanding high school students in the Rochester area this summer under a grant from the National Science Foundation.

The students will observe how probability models are used to analyze a wide range of phenomena from molecular motion to modeling the stock market.

RIT was one of a group of 125 institutions in 43 states to be supported by NSF's Student Science Training Program whose purpose is to offer guidance and en-

couragement to talented young people with strong potentials for scientific and technical careers.

The program at RIT, under the direction of Dr. Neil Bromberg, is designed as a course in probability for high school students of high ability and interest in mathematics who have had three years of college-preparatory mathematics. Its main purpose is to demonstrate to these students that much of mathematics is rooted in the observations of real-world phenomena.

The program will run from June 28 to July 30.
