KALEIDOSCOPE

the beautiful difference in your world

HALSTON

is the designing genius that makes the beautiful difference in your private life

As with everything he does, the keynote is quiet elegance. Halston sees his two new bed and bath ensembles as instant decoration, describes them simply as "uncomplicated, appropriate and very beautiful" which is typical Halston understatement! Taking his own famous H, for instance, he designs a classic, straight-on geometric in the palest, subtlest tones, puts it on bedding, towels and rugs. He gives them all his own special brand of luxe—softer sheeting, superior sewing techniques, mitered corners, hand-sewn diamond quilting, more absorbent towels. See the Halston H and Halston Flower ensembles for Fieldcrest now exclusively at Sibley's... and even if you haven't a Halston original in your closet, you can at least sleep in a Halston! Halston H cases and sheets from \$8 to \$20; acrylic blanket, \$60 and \$80; comforter, \$75 to \$140; towels, \$3 to \$14; nylon rug, \$20 and \$25. Sibley's Bedding, Third Floor Downtown.
