

Wide variety of tours available in Canada

Just one of the many ways to enjoy yourself during a Canadian vacation — fishing for rainbow and lake trout, splake, pike and walleye in Saskatchewan.

Vacationing outdoors in Canada is one of the easiest holidays to arrange since every Province has its own specialty to offer the tourist.

The Canadian Government Office of Tourism suggests that a package vacation is one of the best ways to arrange an outdoor vacation. Travel agents are equipped with information on what's available and can arrange it at a better price than if you tried to book everything yourself.

Canoe camping... houseboat holidays... fishing and hunting expeditions... skiing... hiking... or a land tour

in a rented motor home are some of the packages being offered.

Each of the 10 Provinces offers its own unique brand of outdoor living for vacation-bound families. Thoroughly experienced outdoorsmen will enjoy raft tours. There are hiking and camping trips for the moderately experienced, and tamer trips for those just starting to enjoy the outdoor life.

For further information on outdoor trips, write the Canadian Government Office of Tourism, 150 Kent Street, Ottawa, K1A 0H6, Canada.

Keep outdoors safe and clean; leave only footsteps behind

The Great Outdoors is yours to enjoy, but your enjoyment should be tempered with basic rules of safety and conservation.

Every camper knows he should be sure to drown his campfire before leaving the area. And he should be certain the fire is completely out.

But every motorist should remember to use the ashtray in the car. Throwing a burning cigarette out the car window may be safe on a paved street in the middle of a city, but in the country the only safe way to put it out is to use the ashtray.

Every camper, motorist, fisherman, hunter should be a self-appointed policeman and take care to leave his area spotless.

Food containers and wrappers should be put into litter baskets and garbage cans. If there's no waste container at the site, package it and carry it somewhere else and find a container.

Pull-away tabs off soft

drink cans should be put in a pocket until the can is empty. Then the tab can be dropped into the can, the can squeezed together, and dropped into a basket.

Film containers should be dropped into a pocket, not on the ground, until a trash container is found.

At a picnic site, treat it as you would your home. Clean up when you are finished.

If food is dropped on the ground, pick it up and put it in a garbage can. The next family may include toddlers who are prone to pick up anything on the ground and put it in their mouths.

If you're a family that likes to take your dog on a picnic, remember that he may not be welcome at the neighboring table. Keep him close to you so he won't bother others.

Whether on land or water, follow the basics of good housekeeping.

Leave ONLY your footsteps behind you.
