Barber Conable ... Your Man in Washington ... Works To Make Government Responsive to the Needs of All Americans.

"Government is becoming an extravagant partner of every working and taxpaying American," says Congressman Barber Conable. "It's bad enough that this year's income and business tax cuts are far too small. And it's bad enough that a Democratic Congress and a Democratic White House have let government engulf us in costs and regulations. But to make it worse, the social security amendments passed by the Democrats amount to the biggest tax increase in our nation's history! It will hit you square in the wallet on January 1! Republicans are determined to bring you relief from your tax burden, to improve the business climate and increase job opportunities, and to make your government truly responsive to the needs of all Americans. I hope you will help me with your vote on November 7. You'll find my name on Row B."
