

FACT:
**Governor Carey has
 fought for strong anti-
 crime programs:**

Hugh Carey fought for—and won—the toughest anti-crime legislation in New York State's history. In addition, he has worked to reduce the large number of cases that are jamming our court system. With Hugh Carey in Albany,

- Longer sentences for violent criminals have been instituted—including maximum life sentences for three violent crime convictions.

- Thirty special trial courts were created to concentrate on violent crimes, crimes against the elderly and repeat offenders.

- New York State has a new system for the merit selection of Court of Appeals judges.

- The amount of money the Crime Victims Compensation Board can award victims of violent crime has nearly doubled.
