THOUGHTS TO CONSIDER "Attending the Funeral" By Ed Sulewski

How many times have you heard someone say "I hate to attend funerals?" Quite a few, I imagine -- and maybe your own feelings are somewhat the same. However, the funeral service plays a very important part in the acceptance of death. The finality of the body -- or attending the funeral -- of a friend or loved one clears the mind and releases many emotions, allowing us to face the reality of death. The absence of a proper service -- or our lack of attendance -- may make it very difficult for us to accept the death. You've often heard the old saying that "only two things in life are certain -- death and taxes." We learn to accept the inescapable taxes -- but we don't train ourselves or our children to accept the inevitability of death. If you are interested in learning to deal with death realistically, please call us. We have several pamphlets and a suggested list of reading that you will find helpful.

THE FAMILY CARE PROGRAM NEEDS FOSTER HOMES

If you are a warm, caring person, please read on. We need family care homes (foster homes) for mentally retarded children, teenagers and adults. We have seventy homes already and our goal is to keep increasing this number. This way many more mentally retarded individuals coming to Monroe County from institutions can enjoy the advantages of living as part of a family.

Our program, called FAMILY CARE, seeks to place children and adults with families who can provide them with the home atmosphere all of us need. Some people need a home for a short time (weekends and school vacations) while others need a home on a more permanent basis.

Give foster care a thought. Seventy families already have and are enjoying caring for their new family members. The board payment is \$247.30 a month.

If you're interested in becoming a family care parent or want more information call or write to:
