

Met Christ...

to the World!"

-Pope John Paul II

Leprosy affects an estimated ten million people in Asia. Our 'neighbors in Christ' around the world suffer from disease, hunger and poverty. Your help on World Mission Sunday will make a real difference to them, as the Mission Church serves in parishes, schools and hospitals worldwide.

Whom do you help by your Mission Sunday prayers and sacrifices? People — like us, wonder about their faith, and worry about their jobs, their children, their health. Your generosity will be channeled through the Society for the Propagation of the Faith to those who need the guidance, consolation and leadership that only the Church can provide. On October 19th, won't you help people around the world? (Vivant Univers photo)

Your sacrifice to the Society for the Propagation of the Faith helps parishes such as this one in Indonesia to carry on the redemptive work of Christ. Please pray, particularly on Mission Sunday, that they may grow in the faith. (CIRIC photo)

...ible expressions of our faith. ...ps poor mothers to earn their ...w and to market their output ... Please remember them, and ... Mission Sunday, October 19th.
