CBN President Apologizes to Priest

The president of the Christian Broadcasting Network has sent a personal letter of apology to a Buffalo-based priest who quit the network after he was told by a CBN executive that he could not use certain subjects on that network.

Father Linus Hennessy, the Buffalo Franciscan whose radio program "Comfort My People" is broadcast in Rochester over WWVG, left CBN during the summer. He had broadcast a program on Isaiah and spoke on the Catholic practice of praying to the Blessed Virgin Mary, and the saints.

He then received a letter from John Tomczyk, of CBN Northeast Radio, telling him that "teaching of this nature cannot be performed on CBN." The letter also threatened that if such an occurrence were repeated the program would be removed from the network.

Father Hennessy resigned, stating, "No Church or sect has a monopoly on preaching the Gospel."

Last week, Dr. M.G. (Pat) Robertson, founder and president of the Christian Broadcasting Network, stated that "an employee erroneously stated that CBN had a policy of censoring programs aired on its radio network. We have no such policy. All Christian denominations are represented in our programming — and in our listenership."

"In fact," Robertson continued, "there is no policy. We are completely open to everyone in the Body of Christ."

Robertson also sent a letter of apology to Father Hennessy.

A spokesman for CBN told the Courier-Journal that Father Hennessy would be welcome back on the network but that would be the priest's choice.

Father Hennessy could not be reached for comment but a board member of his program, Barbara Berger, said it was unlikely that Father would rejoin CBN because he has recently signed on with several local stations.

Robertson added, "Just last month CBN discussed an agreement with the Catholic Television Network to put additional Catholic programming on CBN Satellite Service, reaching eight million homes. At present, CBN Satellite Service is carrying several Catholic

Sister Margaret Mary Ganley will direct the program by sharing reflections about prayer, and leading those present through a guided prayer experience.

"The goal of the day is to help participants grow in their understanding of prayer and the discernment of God's call in their lives," an announcement of the event stated.

You made a good decision—

Roger Robach!

You made a good decision when you sent Roger Robach to Albany for the first time in 1974. You confirmed that choice in 1976 and 1978 by re-electing him by pluralities of over 10,000 votes.

Since being elected your Assemblyman, Roger has become widely recognized as a legislative leader in business and veterans' affairs and programs for our senior citizens.

While maintaining close contact with his constituents at home through his district office and frequent newsletters, he has also gained the respect and admiration of his colleagues in Albany. Roger is now considered one of the most articulate spokesmen in the capital for the problems of Upstate New Yorkers.

His abilities have been recognized by his appointment as chairman of both the powerful Assembly Standing Committee on Commerce, Industry and Economic Development and the Assembly Subcommittee on Parks and Recreation. Roger is also a member of the influential Ways and Means Committee of the Legislature.

When Robach speaks for us in Albany, both the legislature and the Governor listen. This level of recognition just doesn't happen — it has to be earned. Service to his constituents — leadership in Albany — isn't this what you have come to expect from Roger Robach? We have a good, honest man working for us in this Assembly district. Let's recognize his contribution to Greece, Rochester, and the State by returning him to Albany with an even larger mandate in 1980!
