This is a great country . . . but it's not being run like a great country. That's why I'm running for President.

Our future as a nation is at stake. The Reagan-Bush team has strong beliefs about important issues that will affect our future.

Strong Family: The family is the foundation of our social order. The Reagan-Bush team pledges to strengthen it through our domestic policies.

Education Assistance: We support a system of tuition tax credits to parents who wish their children educated in non-public schools, and support more aid to those schools.

Abortion: We support the right to life for unborn children.

Senior Citizens: Senior Citizens need not worry about maintaining dignity in their lives. Social Security and support services will be backed and strengthened. Inflation will be our prime target.

The time is now
