

# Alive and Whole

Sacred Heart School, and Mrs. Diane process, Bishop Matthew H. Clark daughters, Lisa, age two, and Jennifer, recording the event.

## To Teach and Serve

"Catholic schools which realize the threefold purpose of Christian education to teach doctrine, to build community and to serve — are the most effective means available to the Church for the education of children and young people."

Teach Them  
U.S. Bishops  
May 6, 1976

## We Love a Parade

St. Margaret Mary's marching band entertains onlookers.

## Big Business

Mark Courtney, St. Joseph's, Wayland, removes a chocolate-coated crunch bar while his partner Patrick Kennedy holds a pan of bars to be coated. The candy bars were produced and sold by the young businessmen.

## Musical Notes

Flutist Tracy Watts of the Good Shepherd Sunshine Band pipes a melody.

## Happy Landing!

Students at St. Jerome's School prepare, not for air flight, but for a number of life's activities requiring muscle tone, through parachute exercises in physical education class.

## It Worked!

Christine Capacci is delighted as Maureen Kane continues experiment in Our Lady of Lourdes School science lab.

## Looking to the Future

Father Robert Smith gives tips and opportunity for experience to future lay lecturers at St. Margaret Mary's School.

men and women engaged in all Catholic schools. We have to share our work for neighbors. Your work to greater knowledge of

I wish also to invite all to become better acquainted here is one in your parish staff it will welcome your interest at the variety and

constantly to develop the make to the communities. Your interest and com- at in an even better way.

Matthew H. Clark

## Needs

activities to meet the needs of the individual child. Our programs are designed to help each child operate at his highest potential.

A varied approach is used in teaching basic skills, problem solving, reasoning, critical thinking and communications skills.

Religion, reading, mathematics, language arts, science and social studies are the primary subjects taught in grades K-8.

Art, music, physical education, drama, library science and electives are offered along with classroom subjects to provide a well-balanced curriculum.

Liturgical preparation and participation, field trips, science and social studies fairs, school plays and musical programs are some of the activities in which students can engage.

Chorus, piano and guitar lessons, intramurals, girls and boys basketball and soccer teams, cheerleading teams, carnival and school newspapers bring enthusiastic support and spirit to our schools.
