

# Round Round Round

## EASTER

From Bishop Kearney

## Equal Time

Why is God a necessary part of life?  
**BISHOP KEARNEY**

**DAN SUTER**  
Senior  
Coronet editor

"I think your faith can guide you through crises in your life. You tend to have a better sense of right and wrong if God is a part of your life. A society without God would be chaotic and would go out of control."

**MIKE JACKIW**  
Freshman

"I think faith is sort of like a reassurance; to know that in times of struggle you can rely on God — maybe not always answered — but it helps you to understand yourself and your problems, knowing that He's listening. I still think people have faith but times have changed and they express their faith differently. The ceremonial aspects have changed."

**KATHLEEN LAFFEY**  
Senior  
literary magazine

"I think God is important in our lives because He gives people hope and something to aim for. He gives life meaning. Without him, people would be living pointless lives. I think people have changed in their way of worshipping him but they still believe in God."

**LUCY HUNG**  
Junior  
literary magazine

"I think God is basically a guiding force in people's lives and when I think of the question I think about the poem entitled 'Footsteps.' It tells about Jesus carrying and supporting people through their difficulties and hardships. I think for mankind to survive it has to believe in a supreme being. It has to have that force to help it endure."

**COLLEEN SULLIVAN**  
Freshman  
cheerleader

"I think God is important during high school years because of the responsibilities and peer pressure we face. He needs to be believed in by mankind because of the encouragement and hope He gives and the fact He is a superior person people can look up to. A world without God would be one without human respect or unity, and people would do whatever they felt was right."

**MARGARET COOK**  
Sophomore  
basketball

"I think He gives meaning to our lives and guidance. I think people believe in God but whether they follow His precepts is another thing. I think mankind has to have a belief in God in order to have hope."

**DOUG ROESCH**  
Junior

"He gives you a feeling of security and you have something to look forward to after death. You can look to Him for guidance. Today's society is less religious than in the past. A belief in God gives people hope when things get tough."

**KEVIN CURRAN**  
Sophomore  
band

"He not only guides us spiritually but is with us in our everyday activities. He gives us a sense of morality and gives everyone hope. I think people are more materialistic today. People should take God more seriously. The world does need to believe in God."

**Christus Resurrexit**  
Nazareth Academy
