

COURIER-JOURNAL

Dear Sirs,
I'm sure that most of the letters that you'll receive will explain how great everyone's mom is and then they'll tell everything that their mom does for them. Well, there is much more to being a mom than just cooking and cleaning. I believe that my Mom fits the description. I'll take a special mom to stay up until 3 o'clock in the morning to tape a team game or comfort you after you've failed a test. I'll always be special when you can sit down and quietly talk to your mom anytime, taking time out of her busy day. I'll take an understanding mom to cook dinner for 12 football players when you walk in the door and remember that you never asked her. My Mom, who has 3 boys, each with different abilities and interests, loves each one as much as the other. While it may seem like my Mom is very busy she also works 4 nights a week at Jolly's.
Our family may not be real rich and we don't get whatever we want, but we get something much more important from her that money can't buy, it's called love! This is why I believe that my Mom should be mother of the year.
Sincerely,
Jud Scarpulla
note: I wasn't able to obtain a recent picture.
