How to "insulate" a window:

add SOFHEAT

(Hot-water electric heat without plumbing)

SOFHEAT baseboard units by Intertherm are specially engineered to warm the cold air that flows from windows and outside walls and utilize natural air currents to warm the room gently and thoroughly. SOFHEAT's hot-water

heat doesn't dry the air, cause soot or dirt. Portable units plug into any 120-volt outlet. Let you turn the furnace thermostat down—keep the room you're in comfortable. Now's the time to buy
