

# Know That You Are Important

Dear Friends:

I believe it is appropriate for the National Catholic Education Association to select "Celebrate the Good News in Education" for the theme of Catholic Schools' Week — 1982.

The Catholic schools in our diocese have truly given life to the "Good News." We are proud of the academic standards and accomplishments of our schools. More than that, we are proud of the commitment to faith and service promoted by our schools.

I encourage each of you to take the time to visit our schools to judge for yourself the quality and mission alive there. In a period when the goals and values of society are centered in power and materialism, it is essential that our educational system is rooted in teachings and values centered in the message of Jesus Christ.

Let us take time — especially during this week of celebration — to congratulate and challenge our Catholic school personnel to continue to make the "Good News" the focus of their existence!
