

PREFERRED CARE IS READY WITH CARE WHEN AND WHERE YOU NEED IT

WORKING TO KEEP YOU HEALTHY

Routine doctors' office calls, diagnostic services, and other preventive measures are key to the PREFERRED CARE concept. These benefits are provided without meeting a deductible. We want you to seek care as soon as you need it. The \$3 doctor bill makes care affordable!

WHEN YOU GO TO THE HOSPITAL, PREFERRED CARE IS THERE

PREFERRED CARE provides for the catastrophic as well as the routine events. When you are hospitalized, you're covered for *unlimited* days and services which are medically necessary. Room and board, special units, anesthesia, operating room, etc. are covered in full. PREFERRED CARE also pays your participating doctor in full for surgery or other medical services in the hospital. PREFERRED CARE physicians admit to all major area hospitals.

PLANNING YOUR FAMILY

Voluntary family planning and full maternity benefits are available to any PREFERRED CARE member. Maternity care includes pre-natal and post-natal care, as well as hospitalization and delivery. Your baby is covered at birth provided you enroll the newborn immediately.

YES . . . YOU ARE COVERED OUTSIDE THE ROCHESTER AREA

Your PREFERRED CARE protection extends anywhere in an emergency. If you have a serious illness or accident outside of the Monroe County area, PREFERRED CARE provides protection. This applies emergency room care, full inpatient care and other provider services.

SPECIALIZED CARE IN THE ROCHESTER AREA

Most specialties are represented on the Preferred Care physician list. However, if there is a need for specialized service not available from a Preferred Care provider, you may be referred to a non-participating provider by your primary care physician with prior approval by Preferred Care's medical director. Arrangements will be made with these providers to Preferred Care directly.

WE EVEN DO THE PAPERWORK

Your PREFERRED CARE card is your ticket to comprehensive health care. Present it with the required copayment at the doctor's office, hospital, or other health facility, and they'll bill us directly. You don't have to file claims or wait to be reimbursed for a bill you paid.
