'Education in Love'

By Sister Anne Michelle, SSI

The sex education curriculum, "Education in Love," has been revised and is ready for implementation with the beginning of this

school year. The format and the 26 understandings have not been changed, but the information and resources have been updated.

In preparing this program

we hoped to develop the concept of the sacred nature of sexual love, that this gift carries with it serious obligations, and to develop respect for the other sex. This program emphasizes the family orientation of sexual love.

To assist the teachers in the implementation of this program, four teacher in-service days have been planned throughout the diocese.

Msgr. William H. Shannon of Nazareth College will address the teachers on conscience formation and a theological stance on sexuality and marriage.

Youth Ministry

By Patrick Fox

Youth Ministry is the ongoing attempt to put one's own search for God, with all the moments of pain and joy, despair and hope, at the disposal of those who want to join this search but do not know-how.

The Office of Youth Ministry was established this year to facilitate the accomplishment of this task. During the past year, the Diocesan Youth Commission planned the approach to and design of this office. In early June, a director was hired and on July 1, the office became a reality.

Presently the office is available for consultation to parishes, schools and institutions of the diocese. Among the services available are planning and program development for parishes, which includes consultation and assistance in developing or expanding programs.

The office is prepared to offer skills training in group dynamics, communication, human relations, and leadership. The purpose of these programs is to develop

skills the teens can use in their own parishes or schools.

Another area that the office will look at is the development of teen spirituality. We can offer help with ideas for developing programs of spiritual growth and planning worship. There is also information and help available to develop programs on prayer and Bible study for teenagers.

The leaders of teen groups are also a focus of the office. Adults working with teens also need support and help. The director is prepared to meet those working with youths to address the issues, concerns or problems. Help in planning, program design and evaluation is available. There will also be the opportunity for those working with youths to gather together for mutual support, to share ideas, and to learn about new ideas and techniques.

The future holds great possibility. There will be a newsletter beginning later this year, and the publishing of a Directory of Youth Ministry to make people aware of services to youth, and possible resources of which they may be unaware.

Finally, beginning with the Youth Convocation, Friday, Oct. 15, at Our Lady of Perpetual Help Church, we will be holding regional youth gatherings on a regular basis around the diocese.

As director of Youth Ministry, I am available by calling (716) 328-3210. I am ready to try to answer any questions one might have, or inquiries one would like to make.

Diocese Thanked For Contributions To Catholic U.

Washington — The contribution of \$18,560 from the people of the Diocese of Rochester to the pontifical Catholic University of America was recently acknowledged in a letter of gratitude from University Provost John Joseph Murphy.

In his letter to Bishop Matthew H. Clark, Dr. Murphy said, "The need becomes clearer every day for teaching and research which are value-centered and which occur in a context that explicates the fullness of human personhood. We cannot conceive of genuine education in the absence of a constant appreciation of the presence of God in all His works."

Shrinking financial resources, both from private and public sectors, and new tax legislation making donations to private institutions less attractive "make us keenly aware of how important is the support we receive from the annual diocesan collection," Dr. Murphy stated.

The Catholic University was begun by the American bishops in 1887 and has been supported by annual diocesan collections since 1903. Last year's collections totaled nearly \$3.5 million, representing 7.28 percent of the budget for the University in Washington, D.C.

WILL YOU SHARE A CATHOLIC EDUCATION WITH A WORTHY CHILD?

For over 80 years, a strong Catholic school system served children in Rochester's central city neighborhoods. But there aren't very many Catholic schools left in central Rochester these days.

Saint Augustine's and Saint Monica's Catholic Elementary Schools, located on Rochester's southwest side, serve children living in neighborhoods ranging from the city's 19th and 3rd Wards all the way to downtown Rochester.

Many children are from genuinely poor families. Families which are plagued by sickness or suffer the death of a parent, for example.

These worthy children and their families find themselves in real poverty through no fault of their own.

These parents desperately want their children to be educated in a Catholic school, to be exposed to high academic standards, a healthy sense of discipline, the values of patriotism, and most of all, to Christian teachings.

.....

We've established a CATHOLIC EDUCATION FUND to help pay the costs of educating children who are needy and worthy. So many good people have helped bring Catholic education to Rochester's poor over the past few years.

Will you help?

Your financial contribution — large or small — will help us serve more deserving children now and in the future!
