BK Kings to Make Irish Eyes Smile in March

The Bishop Kearney High School Marching Kings will be featured performers once again in this year's St. Patrick's Day Parade in Dublin, Ireland.

The band's appearance will highlight a nine-day British Isles tour now being planned, and according to Arthur Rietman, band director, arrangements are under way for a performance for Queen Elizabeth II of England. Departure for the tour will be Saturday, March 12, returning on Monday, March 21. The tour will begin with two days in London, where there will be the opportunity for seeing the "Changing of the Guard" and then a visit to Stratford-Upon-Avon. In Ireland there will be several days of parades and competition in Dublin, Galway and Limerick. There will also be visits to the Blarney Stone and a medieval castle for a banquet.

The Marching Kings during the last 14 years have become internationally known. They have performed in Rome for the pope, and Monaco for the royal family. In the U.S. they have marched in the New York City and Chicago St. Patrick's Day parades. They first participated in Dublin's parade in 1969 and have been sweeping the Irish com-

petition awards ever since.

The cost of the tour, which includes air fare, hotels, two meals a day, plus tours, is \$1,299 per person. To make reservations or for further information contact Arthur Reitman or Dan Burke at 342-4000. A completed itinerary will be ready by mid-November.

DeSales Welcomes Pupils

Geneva — DeSales Regional High School was a beehive of activity when 150 eighth grade students from area schools visited Nov. 18, 19, and 22. Students from St. Mary's in Waterloo, St. Michael's in Newark, St. Stephen and St. Francis in Geneva, and St. Mary's in Canandaigua were introduced to DeSales, the only alternative high school located between Rochester and Syracuse.

The visitation program, an

annual recruitment event, featured a performance by the Music Ensemble under the direction of John Englert, a slide show, and classroom demonstrations in art and computer science.

DeSalé seniors Kim Koch, of Seneca Falls, and Andy Pacilio, of Geneva, serve as co-chairpersons of the school's recruitment committee. The high school currently enrolls 250 students from 15 different school districts.

Vetri Sweeps Awards

Maria Vetri, a sophomore at Cardinal Mooney High School, recently received three \$1,200 scholarships to the Philadelphia Academy of Theatrical Arts, a \$500 bond, and two trophies. She received the awards by placing third in the beauty pageant, fourth in modeling, and first in the talent competition at the combined International Dream Girl Beauty Pageant, North American Model Contest and the Showbiz Competition. Maria's talent award recognized her lyrical dance presentation which she partially choreographed herself.

New Officers Ready To Take on Duties

Elmira — Notre Dame freshmen have been active in nominating and electing their leaders for the 1982-83 school year. Those nominated for various offices were required to prepare and deliver a speech about themselves for their classmates. From the nominees the following were elected into office: Michael Johnston as president of the class; Shawn Capozzi, vice president; Monica Tarby, secretary; and Colleen Rush, treasurer.

officer or representative creates a working relationship between student body and faculty, promotes further involvement in school activities and offices, and in application to membership in the National Honor Society.

Elected as representatives to the Freshman Class Council were Mark Ederly, Chris Kenefick, Mary Schwenkler, Renee Grosvenor and Tom Mallare. Elected to the Student Council were Christian Danaher, Mary Ellen Whitmer, Dan Gizzi, Mary Theresa Smith and Dominic Sidari.

According to school sources, being elected as an

Three-Year Streak Is Broken

On Friday, Nov. 12, Aquinas Institute carried on a favorite tradition and held its annual Spaghetti Bowl. This football game pitted the Italian seniors against the Irish seniors and both teams battled the rainy weather.

The Italian team scored early in the game and held its lead to win the historic game, 28-7. Scoring for the Italian side were Glen Spinnelli, Joe Testa and John Toscano. Scoring the only touchdown for the Irish was Michael Loveland. It was the first time in three years that the Irish team was defeated.

Should there be a nuclear arms freeze?

McQUAID

ROBERT KOLMETZ
Junior
basketball

"Yes there should be, because we've already got enough nuclear arms to blow up the world several times — why build more? They say the arms are peace keepers but how can that be when they are for destruction? We have to keep talking to work out the problems."

BRIAN O'LEARY
Senior
soccer

"There should be one, but there's no chance for a Utopia in this time period because of the Russians and their communistic views. There's no sense in taking a chance in freezing our arms buildup when they could continue building behind our backs."

CHRIS SCHOTT
Junior
football

"Yes I think there should be, but I don't think it's possible in the near future because of the changes in the Russian government. It is going to take a while before new negotiations get started. Nuclear weapons are built for the intimidation factor."

ROB WIESE
Senior
football

"Yes because there's already enough weapons to destroy the world, but I don't foresee the Russians changing their way of thinking. It would be a nice goal but I don't see how it could be achieved."

JOHN REDDINGTON
Sophomore
basketball

"I think there should be a nuclear freeze because if there isn't it could get out of hand and if used could destroy the world. It would be difficult to have a nuclear freeze because there doesn't seem to be the power to stop the buildup of weapons."

RICH GAENZLER
Sophomore
football

"Yes there should be in order to equalize the arms power. I don't see it in the future because the SALT talks fell through and with the new government in Russia it will take time to talk with the new leaders. If you keep stockpiling nuclear arms the danger of them being used will grow and grow and if there ever is a war no one will be left."

TOM DRISCOLL
Senior
cross country

"I think there should be a nuclear weapons freeze, but, realistically, I don't see it in the future because the Russians won't change their policy of aggression. They'll keep building as long as they keep invading other countries. We don't have any choice but to do the same."

SEAN KEEGAN
Sophomore
hockey

"Yes there should be a freeze but I don't see how there can be. We have too many (nuclear arms) already in circulation. The little countries are asking for weapons to expand their powers. I think with nuclear weapons if one ever got used it would lead to world destruction."
