

Without the United Way, 665,000 could have no one to turn to.

Because that's the number of people in Greater Rochester who turned to the United Way for help last year. Hard to believe? Not when you consider the facts.

The United Way teams up with 148 human-service agencies across our five-county region. Together they help not only with food, clothing, and shelter, but also with many other important needs such as drug and alcohol rehabilitation, family counseling, therapy for the disabled, and emergency aid

for heart-attack victims.

Regardless of income, these are needs that can touch anyone and everyone.

That's why Kodak is donating \$2.55 million to the 1983 United Way/Red Cross Campaign. And, our people traditionally give more than twice the amount of our corporate gift, plus countless thousands of volunteer hours.

Think about it. You probably know someone who has been touched by the United Way. So join us in giving generously.

Doing more than meets the eye.
