Goodberlet Receives National Recognition

By Joan M. Smith

"The future of America is based upon the knowledge and productivity of our outstanding young Americans," said Storey Musgrave, astronaut with NASA Skylab Mission. Musgrave is an honorary committee member of the United States Achievement Academy which recently named Georgeanne Goodberlet, a senior at Cardinal Mooney High School, a 1983 U.S. National Award winner in physical education.

The Academy selects USAA winners on the recommendation of teachers, coaches, and counselors. Georgeanne was nominated for the award by Stan Cipura, girls indoor track coach and boys physical education instructor.

Criteria for selection is based on a student's academic performance, interest and aptitude, leadership qualities and dependability.

Georgeanne, a member of St. Pius the Tenth parish and daughter of George and Margaret Goodberlet comes from a sports-minded family. She has four older brothers, three of whom, Paul, Glenn and Mike, received college football scholarships and

G. GOODBERLET

Dan who is attending Gannon University in Erie, Pa. on a ROTC scholarship.

A tough precedent to follow? Not for Georgeanne. She will be attending Cazenovia College on a soccer scholarship. "My first love," she said about the soccer she has been playing for 10 years. The sport, she said, is in its infancy at Mooney but is progressing upward. This year under the coaching of Scott Morrison, the Mooney team was seeded first going into Section V. And Section V is where

Georgeanne has a record. Not in soccer however. With a throw of 37 feet and 5 inches, she holds the 1983 Section V shot-put record. The shot-put and discus are her other athletic endeavors as a member of the school indoor and outdoor track teams. According to Georgeanne, being a shot-put and discus thrower is more complicated than it seems. It means general body conditioning and lifting weights.

When she isn't conditioning and competing, Georgeanne, through the Mooney community service program, volunteers at Bethany House for battered women. In her time there she has become aware that a happy home life is more the exception than the rule. "It has helped me break out of my traditional view on what home life is," she said and added, "it's helped me appreciate mine more."

Her involvement in sports, she said, has been a way of disciplining herself. "I push a little harder to achieve and it's carried over into the rest of my life."

Georgeanne will major in business management at Cazenovia.

Candy Success

Cardinal Mooney students Mike Pulmbos, Tony DeMonte, Debby Bennett, Laura Buechel, along with Nancee Sykes, Mooney candy drive chairperson, display gifts awarded to the top salespeople in the school's March candy drive. According to school sources, the drive was a success netting \$8,000 which will be used to buy new cafeteria chairs.

Winner

Karen Toth, a seventh grader at St. John the Evangelist School, Greece, won \$5 for being circled in the Winner's Circle feature of Rap Around in the April 20 issue of the Courier-Journal.

Co-chairpersons of this year's drive, sending out Challenge literature to some 8,000 Mercy alumnae, are Theresa Smith Livadas and Joanne Zawacki.

BK Grad Hooked On Outer Space

"Space Artist' Renders Satellites from Salad Bowls" heads an article in the Christian Science Monitor describing Brian Sullivan.

Sullivan, a native Rochesterian and 1972 Bishop Kearney High School graduate, teaches filmmaking at the University of Arizona and is a production designer for the Flandreau Planetarium in Tucson.

Planetariums are not new ground for Sullivan. After receiving a degree in Audio-Visual Technology from the Rochester Institute of Technology in

1976, he worked at the Strasenburgh Planetarium in Rochester and the Smithsonian Planetarium in Washington, D.C.

According to the Christian Science Monitor article, Sullivan is one of the leading artists in the relatively new field of space illustration. In other words, he has a unique way of seeing space hardware — satellites can remind him of a cole slaw container, a deodorant cap or a flower pot — and is able to work his images into realistic and technically correct illustrations.

His works are exhibited in planetariums across the country and accompany articles in *Omni*, *Odyssey* and *Discover* magazines. He has done work for the European Space Agency and NASA. Recently he has illustrated an article by the noted astronomer Carl Sagan.

Sullivan, who while attending BK ran cross country and track and was also stage manager for the school musicals directed by Brother John Heathwood, is the son of Mr. and Mrs. John Sullivan of Irondequoit.

SULLIVAN

Mooney Sophomore Chosen

Cardinal Mooney sophomore Teresa O'Loughlin, daughter of Mr. and Mrs. Robert O'Loughlin of Hardwood Lane, has been selected as the school's representative to the Hugh O'Brien Youth Foundation State Leadership Conference, Friday through Sunday, June 3-5 at the Rochester Institute of Technology.

Mercy Sets 1983 Challenge

The Alumni Association of Our Lady of Mercy High School has launched its fourth annual fund drive, Mercy Challenge. It is scheduled to run through June and the goal this year is \$25,000.

The theme is "That's the Challenge... Watch for Your Challenge Balloon..."

which is tied into the annual Field Day theme at the school.

To every alumna who contributes to the drive, a thank you balloon will be sent with an invitation to return next September to the school's annual Field Day to launch it.

Debates Lead To Knowledge

The students in the honors American History-American Literature class at Our Lady of Mercy High School have had a unique learning situation established this year.

They hold monthly debates about current topics like the gubernatorial election, environmental policy, insanity defense, immigration policy, capital punishment, juvenile crime, book banning and the abortion amendment.

According to teachers Miss Patricia Ciarletto and Mrs. Jane O'Brien, the debates which are organized, researched and chaired by students have been informative for the students and have taught them the value of being persuasive, clear and convincing.

Not every student debates her own viewpoint and this can be a real challenge for the student, said Mrs. O'Brien.

\$2 Million Collected

The Society of St. Peter Apostle national office announced that the contributions of American Catholics to its worldwide General Fund amounted to \$2.12 million in 1982. St. Peter Apostle, a companion organization to the Society for the Propagation of the Faith,

provides for the education and support of seminarians and religious novices in mission countries.

Support will go to some 11,500 seminarians, more than 37,000 minor seminarians and more than 6,000 religious novices.

Winner's Circle

Rap Around weekly will run a photo of a group of students taken somewhere in the diocese. One person will be circled and if that person brings the clipping to the Courier-Journal before noon of the Tuesday following our publication date, he or she will receive \$5. This week's photo was taken at Our Lady of Mercy during assembly. The person-circled should bring the clipping to Joan M. Smith, Courier-Journal, 114 South Union St., by noon, Tuesday, May 10, to receive \$5.
