

What Makes A House A Home?

It's a Crucial Question... and Nothnagle Knows The Answer

The difference between a house and a home is the difference between one person and another. That's why you need a Realtor who will treat you as an individual . . . with unique tastes, preferences, needs and desires.

Nothnagle understands. So, we'll appoint a Nothnagle Associate who will take the time to get to know you . . . to understand the kind of home you're really looking for. Your Associate will help you determine what you can afford, and note your preferences on everything from floorplan to landscaping.

Then, you can browse through our Gallery of Homes. Homes are all pictured, with full descriptions of their interiors; you can quickly identify the houses you wish to inspect.

When you find the right home, your Nothnagle Associate can help you enjoy a satisfactory closing. Your Associate can even help you secure financing . . . with a custom-tailored mortgage through Nothnagle Home Securities Corp.

So if you want a house, go to any broker.
If you're looking for a home,
come to Nothnagle.
