PARISH NOTES

Cohocton parish wants to update parish census

COHOCTON — The parish council at St. Pius V Church is modifying its parish census, which will be conducted over the next several months. The intent of the council is to get an updated list of baptized Catholics in the parish — including inactive Catholics — as well as a list of people with special needs and people willing to serve in meeting those needs.

Other objectives of the census are to provide an opportunity for parishioners to offer suggestions, opinions and observations and to obtain an accurate profile of the parish on which to base decisions about present and future programs.

The council is also hoping to provide an opportunity to further develop leadership skills in the parish.

Most parishioners will be given the census card during Mass. Four or five "home visitors" for each town will also be recruited to drop the census cards off at homes of people not regularly attending Masses.

Anyone interested in helping with the census should contact Ruth Sprague at 716/384-5500 or Henry Faryna at 607/566-2121.

AND YOU THOUGHT YOU NEEDED A NEW TRANSMISSION...

Replace Transmission with AAMCO Multi-Check diagnosis. Lots of people who drove into AAMCO thought the same thing. But more than half of them did not purchase a rebuilt transmission.

Because often, a minor problem mimics the same symptoms as a major transmission problem. That's why AAMCO started the Multi-Check diagnosis.

So you may not need a major overhaul. AAMCO will tell you what you need and give you an exact price. Before the work is done.

And should the diagnosis reveal an internal transmission problem, you'll receive a firm price quote for a rebuilt or reconditioned transmission. *At an affordable price, too.

So come in for an AAMCO Multi-Check diagnosis. It's smart to base your decision on facts, not fear. Especially when facts are free.

*On most late-model and manual shift cars, there will be a charge if an internal examination is needed for a firm price quote.
