

Look for a synthetic throw backed with a non-slip fabric to minimize movement. Machine-washable, 90-by-70-inch throws for chairs and 140-by-70-inch throws for sofas are less than \$30.

Another living room essential one usually needs in quantity: lamps for warm light and reading comfort. Lamps and shades tend to be costly, but great-looking lamps can be found for less than \$20.

Choose midsize table lamps with a clear glass base, pleated fabric shade and three-way light or Oriental-feel, ceramic-base lamps in clay, gray or green with a trim, triangular shade.

Try small lamps perfect for bedside tables in neutrals and pastels or similarly priced earth-tone lamps with homey calico shades.

The wide selection of lampshades at certain five-and-dime stores make dragging shade-less lamps with you a worthwhile headache.

Lampshades should conceal all of the lamp hardware, including the socket for the light bulb and switch.

If you're not certain what style or size shade is best, try several on for size. Shades come in all sizes, colors and fabrics.

Plants add greenery and a homey feel to any sill or table they grace. Dime stores are a great source for greenery and the best news is that plants that sur-

vive in the store often prove indestructible at home.

Small potted plants such as ivy, ferns and violets start at about two for \$5. Hanging plants are a bit more costly.

Keep plant accessories in mind, too. Look for decorator planters and plant stands in a variety of styles and colors and silk-look flowers for the cheeriness of plants without care.

Area rugs are great underfoot when you step out of bed or the bath, and they create visual warmth in rooms with bare floors or single-color wall-to-wall car-

peting. Check for pastel or natural cotton dhurries, 20 by 40 inches and synthetic Orientals, 32 by 52 inches or 24 by 40 inches.

Baskets for magazines, soaps, shells, mail and kitchen utensils add a decorator touch to rooms. Look for an affordable selection.

Mirrors open up rooms and are functional as well as elegant. Five-and-dimes are a great resource for wall and door mirrors.

If your sweeper can't pick up pet hair,

get a system that can.

If you own a cat or dog you know how difficult it is to vacuum pet hair from carpeting and upholstery. The solution is to either get rid of your pet or get a VACUFLO<sup>®</sup> Central Cleaning System. VACUFLO not only gives you convenient, versatile and powerful cleaning but it picks up pet hairs like you've never seen before. Give up your ordinary sweeper instead of your pet and get the cleaning system of the future, today.
