POPULAR EUROPEAN STYLE PLAN FEATURES ORNATE EXTERIOR TRIM

By W.D. FARMER, A.L.R.
A formal entrance foyer allows excellent passage to the formal living or dining room as well as to the spacious family room to the rear. The family room is shown with a fireplace at the end of the home and allows entrance to the basement or the rear sun deck. The kitchen is close by and cabinets are in abundance. A spacious breakfast room is shown, also with access to the sun deck, as well as the double garage and the separate laundry room. A central half bath is included for daytime convenience on the first floor. There are three bedrooms upstairs, all with excellent closet space, the master bedroom having access to the luxury bath with separate shower and commode area. The bonus room also may be finished as a bedroom either during construction or later by the household handyman. The exterior style is constructed of stucco and the windows are multi-lite accented by wood panels between. Corner quoins are added to enhance the beauty of this plan and a dormer window is shown for extra light to the bonus room. This is a computer generated plan. The plan is Number 2550. It includes 2,586 square feet of heated area. All W.D. Farmer plans include construction details for energy efficiency and are drawn to meet FHA and VA requirements. For further information write to W.D. Farmer, P.O. Box 450025, Atlanta, GA 30345.
