Better Hearing Discovery Lets You Hear Everything There is to Hear — Regardless of Noise!

How it Works

THE NEW **ACCOUSTICAL-EAR MINIATURE CANAL HEARING AID** with the most advanced custom-built circuitry for individual hearing problems is now available. This is made possible by the **NRFC (Noise Reduction Filter Circuit)**. Not a volume control, but a circuit that is a vital component in a smart new hearing aid designed to control noise and let you focus on the sounds you want to hear. It gives you pure, clear, precise sound in the midst of interfering background noise.
