**the name in construction that insures Quality, Reliability and Proven Cost Effectiveness...**

If you're 55 years or older, we'd like your input on a Rochester based retirement community that would consist of small homes, townhouses and high-rises with all conveniences. This is strictly a survey of your interest. As your may know the median retirement age is growing at a rapid pace, yet availability of such a community is not. We'd like your opinions including location ideas. Call us or Write. Another innovative idea from Farash.
