# A LEAKY FURNACE IS ENOUGH TO MAKE YOU SICK

Leaks in your furnace or chimney can release carbon monoxide into your home. It's a poison gas that causes headaches, fatigue, nausea and mental confusion. At higher levels, carbon monoxide gas causes severe headaches, shortness of breath even convulsions and coma.

Now a test exists that was developed, tested, and is endorsed by the American Gas Association. The test procedure is presently the most reliable test available for testing residential type furnaces and chimneys.

Don't risk your health. Call the experts at Brandt for a complete inspection of your furnace and chimney. It's one of the most important investments you can make. It's also a sure way to make everyone in your home feel better.

**FURNACE & CHIMNEY INSPECTION**

**\$29.95** Reg. \$39.98 **SAVE \$10**

Includes complete testing and inspection of your gas heating unit and chimney. To get the most reliable reading, this test should be completed during the winter months while the furnace is in operation.

Call today to schedule an appointment that's convenient for you.
