**JOS OLSSON CONTOUR**

*(Bands and Diamond Rings by  
Gudmund Jos Olsson)*

Gudmund explains: "Look at your hand. There is a natural diagonal line from the middle finger and down over the ring finger and little finger. I shape my rings to fit into this contour."

"My design begins with the natural contour. But it is also very contemplated, disciplined, and simplified, expressing my background and sense of style as a designer."

"The rings in my shop illustrate this line. They sit comfortably on the finger. Their shape will minimize any turning, so the setting will receive less wear. Also, because the design extends downwards, the finger will look longer and more slender."

For a free design consultation, and a look at the contour designs, please visit the shop at 700 Park Avenue.

*You deserve the very best!*
