You changed their diapers, taught them to ride a bike, and worried all night about their first date...

And now, you're wondering where they should go to college.

Sound familiar? There isn't a responsible parent who hasn't been concerned about the proper education for his or her children. It's every parent's job.

At MCC, we understand the parent and student process. We are more than just another community college. Our educational standards are high. We prepare students for the real world of business which they must face after graduation. We offer over 650 credit courses in subjects ranging from office technology to engineering science, business administration to food service. Our faculty includes over 600 professors dedicated to helping students grow and excel. Our 2+2 Cooperative Degree programs enable students to transfer, with guaranteed junior year status, to one of 12 participating 4-year colleges.

Send for our Bulletin, visit our college or call 292-3400 for more information. Find out for yourself why, at MCC, we take growing up and college education very seriously.

1000 East Henrietta Road  
Rochester, NY 14623-5780
