All Sounds Are Not Created Equal.

Announcing
The First Canal Aid That Amplifies Only Quiet Sounds.

For individuals who say, "I only need a hearing aid when people speak softly."

The K-AMP™ hearing aid has a built-in sensor that continuously samples the listening environment and **only amplifies quiet sounds.** It is acoustically "invisible" to loud sounds. Call now for a free hearing consultation.

Enjoy good hearing and good looks.
The best of both worlds is now possible: Good hearing and good looks. The canal aid's cosmetic appeal is exactly what you'll want in a hearing aid. Fitted inside the ear canal, it's so small, very little is visible to the eye. Once again - you can catch important conversations and enjoy life fully.
