## HEALTH CARE

### You're never too old to hear better.

Beltone — A free offer of special interest to those who hear but do not understand words has been announced by Beltone. A non-operating model of the smallest hearing aid Beltone has ever developed will be given absolutely free to anyone requesting it.

It's yours for the asking, so send for it now. It is not a real hearing aid, but it will show you how tiny hearing help can be. The actual aid weighs less than an eighth of an ounce, and it fits completely into the ear canal.

These models are free, so we suggest you write for yours now. Again, there is no cost, and certainly no obligation. Although a hearing aid may not help everyone, more and more people with hearing losses are being helped.

For your free sample send your name, address, and phone number today to:

# We Care.

At Crandall Hearing Instruments, we have the latest technology and equipment to help improve your hearing.

In fact, we are already helping many people who may have been told they could not be helped with hearing aids.

We offer the newest and smallest hearing aids available today. Hearing aids that are so tiny, most people will probably never know you're

wearing one. We like to think of them as a "contact lens for your ear."

But most importantly, at Crandall Hearing Instruments, we care about you and your hearing.

Why not let us help you enjoy the benefits of better hearing? Call us today for an appointment and take advantage of our 30 day trial and **Free Battery** offers. Receive a free one year supply of batteries with any hearing aid purchase.

Offer expires 8/31/92. Prior sales excluded.
