used to go to a nursing home," Mary recalled. "I used to go to visit the people. I got two converts out of that."

The people had converted, she explained, just because she came to see them, while no one else did.

"I cannot thank the Lord enough for what I receive every day," she added.

Although other people might

not help produce conversions, Mary urged them to consider volunteering through RSVP or at St. Ann's.

"They are very much in need of help," she said. "The more the better. If you can join us, you're welcome to it."
