

A FAITH FOR ALL AGES A HOPE FOR ALL TIMES

2003 Collection to Aid the Catholic Church in Central and Eastern Europe

Generations of young people are again learning about their faith and receiving the sacraments following 75 years of militant atheistic Communism, which carried out the most devastating religious repression in the history of the Church. The bishops' Collection to Aid the Catholic Church in Central and Eastern Europe helps fund the rebuilding of parish catechetical centers, the training of seminarians, religious, and lay catechists, and the development of Catholic media networks.
