

Even if  
there's  
not a sniffle  
in sight.

In sickness and in health, in ways seen and unseen, we work hard for you and your family every day. How? By creating new kinds of health plans that save you money. Partnering with doctors to get you the care you deserve. Fighting for lower prescription drug costs. Providing programs and online information to keep you healthy. You already know how comforting the coverage we provide in times of sickness can be. Isn't it good to know we're earning our value for you at other times, too?

Vital. Valuable. Every day.<sup>SM</sup>
